A German Clockwinder to Dublin once came. Benjamin Fuchs was that blond Ger-man's name.

And as he was win-ding his way through the land, he played on his harp and his music was grand.

There was a young lady from Grovenor Square, said that her clock was in need to repair.

In walked the German and to her delight in less than five minutes, he had her clock right!

Now as they were seated right down on the floor, there came this very big knock on the door.

In walked her husband and great was his shock to find the blond German had wound his wife's clock!

Then said her husband "Now look here Mary Ann. Don't let that German come in here again

He wound up your clock and left mine on the shelf. If your'old clock needs win-ding, I'll do it myself!"

But then said the German "I ment you no harm. The spring would'nt work in your own wife's alarm

I pulled out me oil-can and gave it a squirt; If you keep it well-oiled, your wife's clock will work!"
